

Group BCD: Ben Zhang, Marc Levy, Brent Yarnel, Jerry Davis, Janet Nackoney, John Wilson, Seth Spielman, David DiBiase

Workshop Topics with Priority (1 = highest):

- 1 (tie). GIScience Research Challenges in Health
  - GIS & Public Health
  - Health & Environment
  - Health
- 1 (tie). GIScience of Vulnerability to Multiple Hazards
  - GIS Support for Vulnerability Analysis
  - Regional Impact Assessments & GIS
  - Coastal Hazard vulnerability – measures of outcomes and drivers
  - Homeland Security GIScience
  - Participatory GIS & Coastal Zone Management
2. Synoptic Mapping of Human Activity & Mobility (including connectivity & spatial dynamics)
  - Synoptic Mapping of Human Activity
  - Transportation & Population
  - Transportation & Modern Communication Technologies
  - GIScience & Population Pressure
3. Facilitating Integration and Access to Environmental Data
  - Interaction of humans, environment and economy
  - Social/environmental data integration
  - Increasing access to socio-economic data (poverty, demographics, livelihoods, etc)
  - Transdisciplinarity
